Dear Dr. González de Dios,

Thank you for participating as a Rater in the McMaster Online Rating of Evidence System. We value your past and continued participation in our project. Although you did not choose Continuing Education Credits in your MORE profile or these do not apply in your country, we are providing you with a summary of your Rating Activities.

For the period of January 1, 2010 to December 31, 2010 you rated 6 articles in the McMaster Online Rating of Evidence System.

If you would like to review the list of articles you rated or how others rated them, please log into MORE and click on Rating History.

I hope you found your rating activities worthwhile and we look forward to your continued involvement in the McMaster Online Rating of Evidence System.

Sincerely,

Brian Haynes, MD, PhD

Chief, Health Information Research Unit, McMaster University
