December 17, 2012

Dr. González de Dios has participated as a Rater for the McMaster Online Rating of Evidence (MORE) System offered through the Health Information Research Unit of McMaster University for the period of December 20, 2011 to December 17, 2012.

Rating includes perusing and appraising higher quality studies and systematic reviews published in the health care literature or by national evidence review organizations.

Raters assess articles of interest within their own clinical discipline and must be in at least part-time clinical practice. Ratings are of clinical relevance and interest to clinical practitioners and provide a valuable post-publication peer review to support clinical practice.

For further details, see <http://hiru.mcmaster.ca/more/>.

Number of articles rated: 29

Rate: 15 minutes is credited for each article

Total: 7.25 hours credit
